Activity 5.2: Group B Transportation Worksheet

Driving Question: Does transportation cause carbon emissions?

1. Which type of transportation creates the most carbon emissions for one person to go one mile? Rank types of transportation from 1 to 6, with 1 being the type that leads to the most carbon emissions and 6 to the least carbon emissions.

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

2. Below, write the reason why you think these types of transportation are different in terms of carbon emissions.

3. Use this space to take notes as you prepare to summarize the discussion in your home group to your expert group. What were the main ideas from your handout that you would like to share?
