

1.2 Expressing Ideas and Questions Tool: What do *you* think happens when ethanol burns?

Draw labeled arrows to show *your ideas* about what might be moving into, out of, or through the flame. Think about what materials are moving and how they might be moving.

What goes in: List all the things you can think of that go into the flame.

What comes out: List all the things you can think of that come out of the flame.

Your Explanation: Write your explanation for what happens when ethanol burns. Think about what materials and processes you listed in your drawing above.

Your Questions: What questions do you currently have about how ethanol burns?
